F25LMHC Yamaha 4 Stroke 25hp Long Shaft OUTBOARD FOR SALE

$5,467

Description

F25LMHCYamaha 4 Stroke 25hp Long Shaft OUTBOARD FOR SALE

Lightweight & Feature Packed

The exciting new F25 delivers the weight and performance you would expect from a two-stroke, with all of the advantages that comes with Yamaha’s industry-leading four-stroke technologies.

This new generation outboard is not only an improvement on the four-stroke model it replaces, but also exceeds the all-round capabilities of Yamaha’s legendry 25N two-stroke outboard.

For the first-time in Yamaha’s four-stroke history, the new F25 comes with battery-less fuel injection – delivering easier starts, better fuel economy and an improved overall operating performance.

Through smart design, the new compact F25 is now the lightest 25 horsepower outboard in its class - 20Kg lighter than its four-stroke predecessor and less than 10 kg heavier than Yamaha’s 25N two-stroke.

This engine comes packed with additional features including Yamaha’s variable trolling switch which allows anglers to precisely set the engine speed for optimum lure presentation.

The F25C is not only compatible with Yamaha’s range of command link gauges, but can also be connected to third party multi-function displays, GPS and fish finders.

Another great feature is the ability to fit Yamaha’s exclusive YCOP engine immobiliser, delivering peace of mind by preventing unauthorised engine start-ups

The new F25 can be configured with manual or electric start, tiller handle or mechanical steering, and manual or power, trim and tilt options.

Available in:
- F25SMHC- Manual Start, Tiller Handle, Transom height - Short
- F25LMHC- Manual Start, Tiller Handle, Transom height - Long
- F25SWC- Electric & Manual Start, Tilt System - Manual, Forward/Remote Control, Transom height - Short
- F25LC- Electric Start, Tilt System - Electric Start(Power Trim & Tilt), Forward/Remote Control, Transom height - Long
