**Description**

The Polycraft 599 Frontier Console is a premium fishing boat designed for serious anglers who want a reliable, spacious, and durable vessel. With its sturdy construction, the 599 Frontier Console can handle tough conditions while providing an excellent balance of performance and comfort. Paired with the powerful Yamaha F150HP 4-Stroke engine, this boat offers smooth handling, thanks to integrated hydraulic steering and electric start features. The addition of the Yamaha 704 binnacle control upgrade enhances the boat's sleek and modern design, while the SDS stainless steel prop ensures minimal vibration and noise. The Evolution Tandem Trailer, built with Australian steel and featuring teflon keel pads, guarantees easy launching and retrieval, making it the perfect fit for the 599 Frontier.

This package includes high-end electronics to enhance your boating experience, like the Garmin UHD2 95SV Chartplotter/Sounder Combo with preloaded Garmin Navionics+ maps for Australia and New Zealand. The upgraded GT56UHD transducer provides ultra-high-definition scanning, giving you crystal-clear views of fish and structure. For safety and communication, the GME GX750B VHF Marine Radio offers dual watch functionality and waterproofing, making it an essential tool on the water. A marine-grade battery with an isolation switch ensures reliable power for all your electronics and accessories.

Fishing enthusiasts will appreciate the thoughtful factory-fitted additions, such as the bow mount thruster plate, perfect for adding an electric motor, and the bait and fillet board for convenient fish preparation. A boarding ladder adds ease when getting in and out of the water, rounding out the list of features that make the Polycraft 599 Frontier Console package a top choice for those seeking versatility and durability in their next fishing boat.
