Description

T25LWTC Yamaha 4 Stroke 25hp Long Shaft HIGH THRUST, Electric Start, Power Trim & Tilt System, Multi-Functional Tiller Handle or Forward Control OUTBOARD FOR SALE

The new High Thrust T25 delivers the power and grip to manoeuvre heavier small vessels with exceptional efficiency. Based on the award winning F25, Yamaha developed the new T25 in response to requests for lightweight electronic fuel injected performance in a small, high-thrust configuration.

The new T25 benefits from the technology and features available on the standard F25 model, including an exceptional powerto-weight ratio, variable trolling rpm control and the ability to connect to Yamaha’s Command Link Digital Gauges.

The new T25 is available in both 20-inch (L) and 25-inch (X) shaft length to suit a wider variety of hulls. The T25 also comes fitted with a dual thrust propeller, specifically tested and developed for this outboard. These big-diameter, low-pitch propellers offer exceptional thrust and efficiency for pushing big loads in both forward and reverse.Available in:

- T25LWTC- High Thrust, Electric Start, Multi-Functional Tiller Handle or Power Tilt System(Forward Control), Transom height - Long
- T25XWTC- High Thrust, Electric Start, Multi-Functional Tiller Handle or Power Tilt System(Forward Control), Transom height - Extra-Long
