Description

T9.9XPB Yamaha 4 Stroke 9.9hp Ultra-Long Shaft PORTABLE HIGH THRUST OUTBOARD FOR SALE

Yamaha’s High Thrust series of four stroke engines have been designed to deliver the grunt needed to push big loads with ease.

The T9.9X is based on the standard F9.9 with one big difference; a higher gear ratio allows this motor to spin a larger propeller minimising slippage and getting more power to the water when you need it most.

- Perfect for yachts or pontoon boats.
- Smooth and quiet operation.
- Excellent fuel economy.
- Power tilt model available.

The T9.9X comes standard with Yamaha’s patented dual thrust propeller that allows exhaust to escape in the opposite direction when in reverse. This gives the propeller access to undisturbed water in both directions for better traction and effortless maneuverability.

Available in:

- T9.9LEB - High Thrust, Electric Start, Transom height - Long
- T9.9XPB - High Thrust, Electric Start, Transom height - Ultra-Long

General Features:

- 9.25P Dual Thrust Alloy prop
- Remote control box
- 10 amp charging
- 2.92:1 gear ratio
