Condition	New	State	Queensland
Suburb	Burpengary East	Engine Make	Yamaha

Description

Own the YELLOWFIN YF-76 Extended Cabin and become the absolute envy of your mates. This beauty is decked out in a sharp two-tone paint job and comes with a rock-solid Yellowfin Hydraulic Braked Tandem Trailer. With its 6 alloy cross members, 50mm coupling braked to handle up to 3 tonnes, and bright LED lights, it's ready to roll anywhere your fishing trips take you.

Under the hood, you've got the Yamaha F300HP 4-Stroke engine, a powerhouse that offers smooth control with its digital electronic control and power trim & tilt. This engine comes fitted with SDS stainless steel prop and electric start, ensuring you're set for any adventure. Plus, dealer delivery and training are included, making sure you're fully prepped to hit the water.

Onboard tech includes the top-notch Garmin GPSMAP® 8412XSV Chartplotter/Sounder Combo, loaded with Australia & New Zealand Mapping, making navigation a breeze. For entertainment, the Fusion RA210 sound system with two marine-grade speakers keeps the tunes going. To top it all off, you've got a Savwinch 1000CS drum anchor winch, dual marine batteries with an isolation switch, a deluxe bait fishing station, and comfy cabin cushions. Whether you're out for a quick trip or a long haul, the YELLOWFIN YF-76 Extended Cabin has got you covered. Some key advantages Yellowfin have over other manufacturers

Feature Benefit Description

Inter Lok Core Strength Full height stringers with inter-locking gibs make for maximum strength and durability.

6mm Bottom Sheets Strength 6mm bottom sheets not only add strength to the boat but make for a softer ride too.

Quad Welded Chines & Keel Strength Both chines and the keel are welded 4 times (twice externally and twice internally), adding massive amounts of material and strength to the already rigid Inter Lok Core.

Self Draining Floor & Bilge Pumps Safety Yellowfin floors are fully welded from cabin to transom, and are built above the waterline, allowing for scupper drains to take care of any unwanted water on the deck. Bilge pumps are also included as a backup measure.

Foam Filled Safety & Noise Reduction Our foam is commercial grade marine foam, compliant with the National Standard for Commercial Vessels, making it fuel and water resistant. Not only is it a key safety feature but it has acoustic benefits too, making each Yellowfin boat incredibly quiet.

U-Dek Safety & Noise Reduction EVA foam makes for non-slip surfaces and greatly reduces hull noise.

External Fuel Filler Safety & Practicality All Yellowfin boats come with external fuel fillers as an added layer of safety as well as practicality. Service stations do not allow vehicles to be fueled from the inside due to inherent risks.

HD-R Hull Handling & Performance A 20-degree variable deadrise in combination with reverse chines and extended planning strakes give Yellowfin boats a soft ride, great stability at rest and trim-responsive handling underway.

Full Length Spray Chines Handling & Performance Full length spray chines not only keep our boats incredibly dry, but they aid in hydrodynamic lift and grip when cornering.

External Keel Handling & Performance Our single-piece external keel runs the entire length of each boat. This key feature keeps each Yellowfin straight and true underway, which is incredibly important particularly in following seas.

****Please note that images used are of the YF-76F(Fishing Edition) and may include features not included in this model or package. Please refer to the below listing details for inclusions.**PACK 3 INCLUSIONS:**
